## CAR SHORTAGE GROWING SERIOUS

Mines Unable to Keep Busy Owing to Lack Of Cars.

## WORKMEN ARE LEAVING MINES

Only a Limited Number of Companies Able to Secure Transportation.

Greenville, Ky., June 15.—The car shortage situation in Western Kentucky is a question that is growing daily more serious, and is at best far worse than the general public has been informed. There are thirteen mines on the Illinois Central railway in Muhlenberg county and Ohio county capable of producing 11,000 tons of coal per day, which are by reason of the car shortage only producing 3,000 tons or less per day.

It is estimated by men who know that if the present condition continues for another thirty days most, if not all the mines will have to close. Some of them now are running only one day a week, and notwithstanding the present high prices being received for coal, the overhead expense of maintaining the mines is so great that the operators are fast losing money. Not only are the operators suffering, but the miners, despite the recent increase in wages, are moving to Indiana and Illinois and Eastern Kentucky. Some of them, it is said, are abandoning homes which they own and going away because the mines are closed down so much of the time on account of the lack of the cars.

There are three mines in this section, however, which are enjoying a full supply of cars. It is said, the Nelson Creek Coal Company, the Central Coal & Iron Company in Muhlenberg county, and the Williams Coal Company in Ohio county. These three mines have recently sold their entire output to the Illinois Central Railroad Company, and are being furnished more cars every day than can be loaded, it being estimated that there are at these three mines each day as many as from nine to twenty-one empty cars left over which the mines are unable to load with coal.

The railroad, by reason of the agreement for furnishing cars to the extent of their capacity to these mines, are enabled to get the coal at a very low figure, but it is contended by the other operators that they should not be compelled to suffer by reason of that arrangement.

It is also shown that the Illinois Central has 86 per cent. of its cars at its disposal, while it is only furnishing between 25 per cent. and 30 per cent. to the mines located along its system in Western Kentucky, while it is stated that the mines of Illinois are running full time.

It is said that 60 per cent. of the car supply would keep the mines running a fair portion of the time, would enable the miners to remain in this field, and would save the operators from trouble.

## JULY 1 PROCLAIMED PATRIOTIC SUNDAY

Frankfort, Ky., June 15.—"Patriotic Sunday," will be celebrated in this State July 1, in accordance with plans of the International Sunday School Association. Gov. Stanley today issued a proclamation calling on the people of this State to assemble in their respective places of worship on this day to carry out the purposes of the day, which the Governor announces as follows:

"To express gratitude to God for our Nation.

"To arouse feelings of loyalty and devotion to the Nation.

"To enlist all Sunday School members in some form of patriotic service.

To enroll as members of the Red Cross Society the officers, teachers, and as many others in the Sunday School who wish to join.

To make an offering toward the Red Cross Society, or other war relief agencies, or the Army Y. M. C. A. work."

## TAKES DARE; TREADS ON OLD GLORY; IS ARRESTED

Lynchburg, Va., June 15.—Rather than take a dare, Warren Utterback,

a young railroad clerk here, trod on the Stars and Stripes and was arrested. Today he was out on bail awaiting hearing on a charge of desecrating the flag.

## BIG INCREASE IS SHOWN IN RETAIL FOOD PRICES

Washington, June 15.—Retail food prices in the United States jumped on an average 9 per cent. between March 15, and April 16, as shown in statistics compiled by the Labor Department. It was the sharpest advance in any one month since the beginning of the European war.

The heaviest increase was in flour, 18 per cent.; bacon, 15 per cent., and potatoes, 14 per cent. Every article of food except coffee showed an advance. Relative price increases for some of the principal foods follow.

Sirloin steak, 8 per cent.; round steak and rib roast, 9 per cent.; pork chops, 12 per cent.; ham, 9 per cent.; lard, 13 per cent.; hens, 6 per cent.; canned salmon, 7 per cent.; fresh eggs, 10 per cent.; creamery butter, 11 per cent.; cheese, 3 per cent.; milk, 2 per cent.; bread, 5 per cent.; cornmeal, 13 per cent.; rice, 4 per cent.; onions, 13 per cent.; beans, 12 per cent.; sugar, 11 per cent.; tea, 1 per cent.

In the year ending with April 16 food prices advanced 32 per cent. Onions during the twelve months went up 179 per cent.; potatoes 146 per cent.; beans 79 per cent., and flour 72 per cent.

## "SAVE FOOD" HOOVER ASKS HOUSEWIVES

Declares Conservation is Only Road to Victory—Plans to Enroll Women.

Washington, June 17.—Herbert C. Hoover, outlined tonight his plans for enlisting the Nation's housewives as actual members of the Food Administration and appealed to them to join him in the fight for conservation measures and the elimination of waste. The women will be enrolled during a period of registration from July 1 to July 15 through the Council of National Defense and the State Defense Councils.

Mr. Hoover is proceeding at the direction of President Wilson, who without waiting for Congress to enact the Administration food bills, directed him to proceed with organization insofar as it contemplates assembling volunteer effort.

"As requested by the President," says his statement, "we ask every woman in the United States engaged in the personal control of food, to register for actual membership in the food administration, thus entering directly into the national service. We shall later on ask various classes of men likewise engaged in food preparation and distribution, to also volunteer to the national service in their various branches."

## TEN ARE INDICTED.

Kansas City, Mo., June 14.—Ten persons, charged by the Government with alleged conspiracy to defeat the selective draft law and similar charges in connection with the recent registration for possible war service, were named in indictments returned by a federal grand jury here late today. Those indicted are Raymond I. Moore, Mrs. Leonora Warneor Moore, his wife; Harry I. Doile, Edward Eagan, Ralph W. Browder, Elea Luboshez, Harry Kleinschmidt, Thomas R. Sullivan, William E. Browder and Earl R. Browder.

The last three named persons are charged in the indictments with non-registration.

The nine men and Mrs. Moore, who are at liberty on bond, will plead to the indictments before Judge A. S. Van Valkenburgh tomorrow morning.

The grand jury returned one indictment yesterday for a man whose name was not given. He has not yet been arrested.

## COMITS SUICIDE.

(Ralph Special.)

June 16.—Mrs. Ab Stevens, of near Magan, met with a very tragic death early Wednesday morning by shooting herself with a double-barrel shotgun. Mrs. Stevens' mind had been failing for several months. She had attempted to commit suicide several times before. She was buried in St. Mary's Catholic Cemetery at Whitesville, Ky., Thursday. She leaves a husband and several children.

LYNCHBURG, VA., June 15.—Rather than take a dare, Warren Utterback,

## BANKS BURIED UNDER RETURNS

Reserve Districts Estimate a Total of \$2,862,800,000.

## DEFINITE FIGURES IMPOSSIBLE

Until Full Count Can Be Made—The Average Man Bears The Burden.

Washington, June 15.—The American people have responded to the Government's call for funds to finance the war with an over-subscription to the two billion Liberty Loan of proportion so huge that official tabulations are buried beneath a landslide of unabated returns.

No man could say at 10 o'clock tonight how great had been the Nation's answer. Apparently it was overwhelming beyond the most sanguine hopes of treasury officials, though not one of the twelve Federal Reserve banks, regional headquarters of the loan, could hazard more than an estimate of its total.

In the country's ringing answer to the call, the dominant note was the voice of the small investor. His money talked this last day of the campaign in eloquent terms. The hope for a widespread response of the average man with the average income, was more than realized in the multitudes that flocked to the banks today. It appeared tonight that all previous estimates had gone by the boards and that nearly three million men and women had bought their bonds.

## TREASURY CONSERVATIVE.

In the absence of official figures tonight, officials hesitated to predict how high the total would soar. It mounted every hour to new heights and assumed such proportions that there was an apparent inclination to accept with some allowance the rosy estimates of local Liberty Loan Committees as to the totals of their districts. At the Treasury a note of conservatism was sounded concerning these estimates. It was feared that the committees, flushed with success, might be over-optimistic and there was a manifest unwillingness to accept as final any estimates unverified by actual tabulations.

## RECRUITING STATION, U.S. ARMY

640 West Jefferson Street Louisville, Ky., June 16, 1917.

Report on Recruiting, Louisville Recruiting District, June 16, 1917.

1. (a) Quota for Louisville Recruiting District ..... 2,448

(b) Number obtained to date ..... 983

(c) Number still out ..... 1,465

(d) The daily average of accepted applicants needed 101 to complete the quota on June 30, 1917.

2. Those who registered on June 5th are not barred from voluntary enlistment and due credit will be given each county for every man who voluntarily enlist therefrom.

3. Men are urgently needed to fill up the 51 new regiments now being organized.

4. The co-operation of the press and of all patriotic societies and of all patriotic people is desired.

5. It is desired that the quota for the Louisville District be obtained by June 30, 1917; valuable time in training will be lost unless this is done.

## RODMAN IN NAVY JUST 42 YEARS, IS MADE REAR ADMIRAL

Washington, June 14.—Exactly 42 years to the day after former Representative Joe C. S. Blackburn secured his appointment to the Naval Academy, the Senate today confirmed Hugh Rodman, a native of Frankfort, Ky., as a Rear Admiral in the navy.

## U. S. GUNNERS LOSE BATTLE

Sub at Range of 8,000 Yards Fires 200 Shells.

## SHIP UNABLE TO HIT TARGET

And Goes Down After a Desperate Running Fight in the War Zone.

Washington, June 15.—American naval gunners have met their first defeat in open fight with a German submarine. Official dispatches today announced the destruction of the tank steamship Moreni, abandoned ablaze June 12 by her crew and armed guard after a desperate running fight in the war zone which cost the lives of four of her crew.

Half an hour after the tanker had been sent to the bottom her forty-three survivors, including all of the members of the armed guard, were picked up with their life boats by a passing steamer. The German commander had set them adrift after congratulating the American skipper upon his game fight and having the wounded men treated by the submarine's surgeon.

The submarine began the action at a range of 8,000 yards, four nautical miles, when she hardly was visible to the steamer without glasses. Presenting virtually no target, herself she sent 200 shells at the big tanker, making many hits, while the American gunners wasted 150 shots without harming the speck from which the deadly hail came.

## ARMED WITH 6-INCH RIFLES.

Naval officers, assumed that the submarine was armed with the six-inch rifles mounted by most of the newest undersea boats. No statement was available tonight as to whether she was one of the vessels that sailed without waiting for full equipment including a range finder. The failure of the gunners to get the submarine was attributed generally to the long range and small target.

The action of the submarine commander in treating his vanquished opponents with such unexpected courtesy was the subject of much comment. Germany has proclaimed her intention to treat British armed merchant crews as pirates. In this case even the naval blue jackets and their officer, properly prisoners of war, were set free, along with the merchant crew.

## PERSHING'S NAME

TROUBLE SOME

Paris, June 15.—The French press is still busy discussing the pronunciation of Gen. Pershing's name. La Liberte says that probably the best solution is Pereche, meaning Gallant Father, or Perecher, meaning Dear Father.

## SIGNS WAR BUDGET.

Washington, June 15.—President Wilson today signed the \$3,000,000 war budget bill which carries appropriations for the new army and other war preparations. It is the largest single appropriation measure ever enacted by any government.

## PETITION IN BANKRUPTCY.

With assets of \$100 made up of three Hartford town lots, and liabilities totaling \$26,833.05, Silas J. Tichenor, of McHenry, Ohio county, seeks relief in bankruptcy by filing his petition in the Owensboro clerk's office of the federal court. Tichenor listed as an asset a \$1,000 life insurance policy, three months old and \$1,600 stock in the McHenry Deposit bank, which he states is wholly worthless, as the bank has gone into liquidation. His liabilities consists of accounts to wholesale drug houses mostly, notes in bank of his own, as well as security debts for which he was bound.—[Owensboro Messenger]

## NO EXCUSE FOR HIGH PRICES; CROPS LARGE

Chicago, June 18.—"The prospects for a record-breaking food yield are such that I can see no justification for abnormal prices" said C. J. Blanchard, statistician of the Federal reclamation service, who has comple-

ed a survey of crops on reclamation projects and stopped in Chicago today.

"It is going to be a whale of a crop," said Mr. Blanchard, "but the problem remains to get labor onto these great tracts for the harvest. I will be called to confer with Herbert C. Hoover, the food controller, when I return to Washington."

## THREATENED TO CUT SON'S THROAT IF HE REGISTERED

Texan Held in \$1,000 Bail After Statement is Made by Witness at Hearing.

San Antonio, Tex., June 18.—Alfred Jurgens, 23 years old, of Gonzales, Tex., charged with failure to comply with the registration law, was released today on his own recognizance by United States Commissioner Edwards after he had promised to register immediately and a witness at the hearing had sworn that Jergen's father, Frank Jergen, had threatened to cut his son's throat if the latter registered to fight against Germany.

On a charge of preventing his son's registration the elder man was remanded to jail in default of \$1,000 bond. The chief registrar at Gonzales, testified that young Jurgens had entered the registration place at 7 a.m. on June 5, but was called out by his father and did not return.

Half an hour after the tanker had been sent to the bottom her forty-three survivors, including all of the members of the armed guard, were picked up with their life boats by a passing steamer. The German commander had set them adrift after congratulating the American skipper upon his game fight and having the wounded men treated by the submarine's surgeon.

The submarine began the action at a range of 8,000 yards, four nautical miles, when she hardly was visible to the steamer without glasses. Presenting virtually no target, herself she sent 200 shells at the big tanker, making many hits, while the American gunners wasted 150 shots without harming the speck from which the deadly hail came.

He was lieutenant-colonel of the Forty-seventh Kentucky Regiment during the Civil War, for 25 years one of the editors and owners of the Farmers Home Journal. He was with Gen. John B. Castleman a joint founder of the American Saddle Horse Breeders Association.

Col. Nall was an uncle of Misses Margaret, Jessie and Poppie Nall, of this city, and at one time lived in the house now occupied by them.

The Misses Nall had no direct word from his family, and at press hour it was not known when and where he would be buried.

## CARRANZA'S SECRETARY ON WAY TO WASHINGTON

Believed to Outline Plans of the President of Mexico in Regard to World War.

Mexico City, June 18.—G. Ugarte, private secretary of President Carranza, left here tonight on a mission to Washington. The exact object of his trip was not announced, but men in close touch with affairs here express the opinion Senor Ugarte is bearing a personal message from President Carranza to President Wilson definitely outlining Gen. Carranza's stand regarding the world war and other questions.

## LOUISVILLE LIVE STOCK MARKET

With assets of \$100 made up of three Hartford town lots, and liabilities totaling \$26,833.05, Silas J. Tichenor, of McHenry, Ohio county, seeks relief in bankruptcy by filing his petition in the Owensboro clerk's office of the federal court. Tichenor listed as an asset a \$1,000 life insurance policy, three months old and \$1,600 stock in the McHenry Deposit bank, which he states is wholly worthless, as the bank has gone into liquidation. His liabilities consists of accounts to wholesale drug houses mostly, notes in bank of his own, as well as security debts for which he was bound.—[Owensboro Messenger]

Louisville, Ky., June 19, 1917.

HOGS—Receipts 3,589 head. The market ruled steady on the others. The best hogs, 165 pounds and up, \$15.55; 120 to 165 pounds, \$14.65; pigs, \$11.40@12.65, and roughs \$14.35 down.

## SUBMARINE SUNK BY THE KROONLAND

**Merchant Vessel Comes Out Victim in Battle With Two Undersea Craft.**

An Atlantic Port.—Destruction of a German submarine by the American steamer Kroonland was reported by the merchantman upon her arrival in an American harbor.

Her officers refused to discuss the encounter except to say that by agile maneuvering the Kroonland managed to ram and sink the U-boat shortly after two of the underwater boats had attacked the merchantman, one from either side. The Kroonland lost a blade from her propeller.

An American citizen who arrived in the United States on June 4 announced he had been informed by one of the Kroonland's officers at a British port that two torpedoes, aimed from two directions, each struck the Kroonland a glancing blow while the vessel was on her last eastward voyage. No mention was made by the American traveler of the sinking of a U-boat.

A crew of American naval gunners was aboard the vessel. She reported no submarines sighted on her return trip.

### THE CONVICT PROBLEM.

We are told that there has been a complete breakdown in the "honor system" at the Joliet penitentiary, and that "new methods" are to be adopted. The whole idea was absurd. Of course convicts should be treated humanely, and equally, of course, such convicts as show by their conduct that they can safely be given privileges denied to incorrigibles should not be denied that reward of good behavior. To put a whole penitentiary of convicts "on their honor," and expect that all of them would keep every promise they made seems a policy out of bedlam.

We notice in several quarters a disposition to speak of the Joliet developments as a "disappointment." They should not be so considered. They were inevitable in the end wherever such crude methods were tried. Now there will doubtless be a swing-back to saner methods in dealing with the convict problem, and in that connection it is all important that ceaseless vigilance be observed to prevent the old brutal methods creeping back.—[Louisville Post.]

### GIVES ALL HE HAS TO AID LIBERTY LOAN; HIS BIT IS \$10,000 BOND

LaPorte, Ind.—In all the United States there can not be a bigger subscriber to the Liberty Loan—not John D. Rockefeller or Andrew Carnegie—than John Eldred, for Eldred has given all he had.

All his life Eldred has been a part-time employee by the LaPorte Herald. By industry and frugality, Eldred saved \$10,000. Today the entire sum is represented in the Liberty Loan.

"It is my bit," said Eldred, but it is believed by his friends here that his "bit" makes him the largest working-man bondholder in the country.

### BUILDING FALLS; 18 KILLED

Sixty Persons Injured In Paris When Factory Collapses.

Paris.—Eighteen dead and sixty injured persons have been taken from the ruins of the factory which collapsed Thursday. The accident was caused by the breaking of a beam supporting the third floor of the building, in which 800 persons were at work. The whole structure collapsed. Many of the workmen escaped before the building came down.

### THIRD EARTH SHOCK IN WEEK FELT AT HICKMAN

Hickman, Ky.—An earthquake lasting for about three minutes was felt Thursday morning at 4:45 o'clock. While the vibrations lasted an unusual length of time, they were mild. This is the third earth shock that has been felt here in a week.

### SIX MEN ARRESTED

Furnished Liquor To Soldiers, Charge Against Sextet.

Middlesboro, Ky.—Six men were arrested by Federal officers Thursday charged with furnishing liquor to soldiers. All were held without bond to await action of the Federal grand jury.

### NO MORE ENGLISH CAPTIVES.

Some 10 days ago, when the German Emperor visited the western front, he made two speeches to his "invincible army." In the first of these he laid down the injunction that "no more English prisoners were to be taken." It sounded simple

enough, but behind the words was the sinister order, "to kill." Germany wants no more prisoners to feed—or to starve, as is more likely—and so dead Englishmen are better than live ones, even when the latter are hors du combat.

The order was virtually one of uncompromising and wholesale slaughter, and it serves to show that Germany has no food to spare and no men to guard more prisoners.

In his second speech the Kaiser gave this diabolical command: "Germans are to hate all British so long as any Englishman is left to hate."

Was there ever given out to a people a more narrow, savage, self-hurtful order? It is the very acme of spite and meanness and egotism, the very antithesis of Christianity and civilization. Light is not further from darkness than this spirit from the spirit of brotherhood and love preached by the gentle Nazarene.

William Hohenzollern says that God is with him but he takes no count of the teachings of Him who said: "Love one another," "Forgive your brother seven times seven." Hate is a cancer that eats the heart that holds it, and by and by it works the utter destruction of the hater.

With these two speeches repeated to them, Englishmen will fight all the more gallantly in the battles ahead. To be the captives of such hatred would be to bear the tortures of a new inferno.—[Commercial Appeal.]

### HOW TO CAN BEANS.

The June Farm and Fireside says: "Many of our readers are asking us how to can particular vegetables, such as beans, peas or corn. Here is the process for beans in detail:

Select beans of the same age and color, and plan to can immediately after picking. String and wash well, and if you do not wish to can them whole cut them into uniform pieces. I like them canned whole. Blanch by placing boiling water from five to ten minutes, depending on the age of the beans, and then plunge them quickly into cold water. Fill the jars, packing closely.

Add one teaspoonful of salt to each quart of beans, fill the jars with boiling water, and put on the tops loosely. Put the jars in the canner. This may be simply a lard pall or wash boiler with a false bottom of wooden slats or, better, a wire rack, and the water in it should cover the cans about one inch. Heat the water hot when the jars are set in and bring to a boil quickly. Count the time from the moment it starts boiling, and sterilize the beans two hours. Then remove jars and tighten covers. Use the same method for peas."

### WILDCAT INVADES HOME

Nevada Men Shooed Animal From Its Hiding Place Under a Bed.

Reno, Nev.—While James Vogt, superintendent of the fish hatchery at Derby Dam, was standing in the door of the home of Supt. Rankin, of the government dam, a hungry wildcat sprang at him, ran between his legs and disappeared under a bed in the room where Rankin's baby was sleeping.

The men removed the baby to safety, opened a window and threw shoes and rocks at the cat until it jumped through the window. Then Rankin shot the animal a sit was making for the brush.

### KILLED IN AUTO WRECK

Oklahoman Dead, Girl Hurt, in Collision With Train.

Ralston, Okla.—Prof. B. E. Richardson, 40, of Fairfax, Okla., was killed and his 14-year-old daughter, Lucille, was dangerously injured here when the automobile in which they were riding was struck by a freight train. Prof. Richardson had been superintendent of the city schools at Fairfax, Okla., for the last eight years.

### SHOT BY A FARMER

Woman Is Killed As Result Of a Mistake.

Springfield, O.—Mrs. J. Elmore Redelle, wife of the president of the Springfield Baseball Club, was shot and killed by J. M. Hinkle, a farmer, who thought members of an automobile party, of which Mrs. Redelle was one, were attempting to steal his hogs. Hinkle is held for investigation and according to officers, admitted firing into the automobile as it was speeding away from his place.

### Never Neglect a Cold.

Children's diseases demand preparedness. When the child wakes you at night, gasping and strangling for breath, how thankful you are to have Dr. Bell's Pine-Tar-Honey at hand. This effective remedy loosens the mucous and permits free and natural breathing. Its soothing balsam heals the irritated membrane and arrests further inflammation. Pleasant to take. Keep Dr. Bell's Pine-Tar-Honey in the house for all colds and bronchial troubles. At your druggist, 25¢.

## IS THERE A FUTURE GRANT OR LEE IN THIS COUNTY?

### Herald Scholarship Offers Some Ambitious Boy Opportunity For Military Education.

Is there really a future Grant or Lee in this county? The Herald would like to know and in order to help this young man "find himself" has made special arrangements for a scholarship with one of the leading military schools in the country.

This scholarship not only offers the fortunate young man a liberal reduction from his board and tuition but also gives him a reservation in the Main Barracks, an eagerly coveted position among members of the student body.

To be eligible, you must have had education up to and including the eighth grade, though if you have one or two years High School training you will stand a better chance. A feature of the military life is the daily drill under a United States Army Officer with special instructions in military science and tactics.

Honor students from this institution are admitted to West Point without examination and are recommended for Second Lieutenant in the Army. The two weeks' military camp in the spring is another feature of valuable interest.

The regular school course which every boy must take includes regular High School work and training either for business or for College. Graduates are admitted without examination to leading universities in the United States.

If you want a good education under Government Military Training, come in and apply for Herald scholarship. It is a wonderful opportunity for some boy in this county.

TUBERCULOSIS.

• • • • •

Tuberculosis germs can not live long in sunshine or find much field for development in a well nourished body kept scrupulously clean. This coupled with plenty of pure air, rest and cheerfulness have worked wonders, often in the cure and always in the relief of the disease. The gratifying results that have followed the study of consumption by eminent physicians and the suggested treatment have brought hope to many a victim who has almost despaired. A request of Dr. W. L. Heizer, Secretary of the State Tuberculosis Commission at Frankfort will bring a pamphlet giving this prescribed treatment to any one interested.

• • • • •

A reduction of more than 25 per cent. in the death rate from tuberculosis in the ten years that the scientific treatment has been followed, whose value has been proved by experience, indicates that in time man's most insatiable enemy may be destroyed or rendered practically harmless. The treatment provides for very little medicine and that must be taken only on the prescription of a physician, pure air, plenty of sunlight, no dissipation, nourishing food cleanliness and rest. A pamphlet giving full instructions will be sent on application to Dr. W. L. Heizer, Secretary of the State Tuberculosis Commission, Frankfort.

### GOOD CROP CONDITIONS

Report For Kentucky Is Generally Favorable.

The Weather Bureau's summing of conditions for Kentucky crops June 12, 1917, is as follows:

"While crops generally are still

splendid growing progress was

made during the past week, and lat-

est reports are in the main favorable

and good for most staple crops

Wheat, while thin on the ground, is

heading out full. Meadows, pastures

oats and potatoes have much improv-

ed. Sweet potato plants and tobacco

plants are nearly all set and are doing

well. Fruits, except peaches

promise fair, and a good strawberry

crop is being picked. The weather

continued too wet for cultivation, and

corn, potatoes and garden truck are

now getting weedy; also bottom lands

are yet too wet. Warm weather and

sunshine are greatly needed."

PRINCIPAL KILLS

HIGH SCHOOL BOY

Head Of Salt Lake Institution Alleges Youth Was Intimate With His Wife.

Salt Lake City, Utah.—Arthur Willard, 34 years old, former Uni-

versity of Utah student and now prin-

**EQUAL PAY FOR WOMEN.**

The Pennsylvania Railroad Company announces, from its New York office, that its employees will receive equal pay for equal work whether it is performed by men or women. Other large organizations have given out similar statements, and there is no doubt that the movement to at least suspend discrimination in this line is spreading throughout the country. The plan should be operative at all times. Whether the adoption of this rule favorable to the women has been occasioned by anticipated necessity and from a selfish motive, or from a desire that down right justice be done matters little. We accept it as proper from both standpoints. For, while the women who fill the places of men with the same efficiency get what everybody knows they are entitled to, the organizations, corporations and other employers help to utilize the combined human power of the nation and thereby advance the successful prosecution of the war and vitalize the patriotism of the people. It will serve to keep business steady and stimulate those who are actually engaged in fighting.

The valuable services of women are being recognized in many of the professions, but perhaps in none like that of teaching. Women are naturally adapted to this noble work. In it they are called upon to perform arduous duties and assume tremendous responsibilities. Very few, if any, receive salaries commensurate with the high degree of intelligence, important engagements, faithful application to the work, and the unselfish devotion required in the proper instruction and training of the young for high class citizenship. In the last few years advancement has been made along these lines, but we believe there are greater things in store for those who are capable and faithful in this honorable calling.

**PRESS ASSOCIATION.**

We attended the Press Association at Louisville last week.

We were highly entertained by the various civic bodies of that city.

Did we enjoy ourselves? Why, certainly! Everyone knows that Louisville's "long suit" is making people have a good time who come within her gates.

The Central Consumers Co., Baldwin & Ballard Co., the Retail Merchants Association and the Louisville Convention and Publicity League were hosts of the Kentucky scribes, and nothing was left undone to make them, their wives and sweethearts enjoy themselves. And we did!

President Wilson, in his flag day speech, sounded a warning against Germany's new "intrigue of peace." In part he said: "Peace, peace, peace has been the sole talk of her foreign office for now a year and more," said the President. "A little of the talk has been public but most of it has been private. Through all sorts of channels it has come to me and in all sorts of guises. The military masters under whom Germany is bleeding, see very clearly to what point fate has brought them. If they can secure peace now with the immense advantages still in their hands which they have up to this time apparently gained they will have justified themselves before the German people; they will have gained by force what they promised to gain by it."

Those who are between the ages of 21 and 31, who failed to register under the Selective Draft Act, and thought they could "get away with it," are finding it pretty rough sledging about this time, so dispatches from various sections of the country state. If we had come under the provisions of this act, we most certainly would have registered, (if not for patriotic reasons) for Uncle Sam means business and those who did not adhere to the requirements of the draft act, are subject to fine, imprisonment, and after all, may have to go to the front just the same. Did you register?

We had the pleasure of meeting Mr. J. C. Alcock, of Jeffersontown, while attending the Kentucky Press Association, in Louisville, last week, and found him to be a most excellent gentleman in every respect. Mr. Alcock is a candidate to represent his district in the next legislature, and we believe the people of his legislative district would make no mistake in sending Mr. Alcock to Frankfort to represent them. He has our best wishes for success in his race.

Poor old Lexington died hard. After the War Department had designated

The registration list, under the Selective Draft Act, is complete. We would like very much to comply with the request of the Government to publish it, but find it impossible. It can be found, however, at the County Clerk's office by any one wishing to look over it.

Rags in London are bringing 25c per pound, while Irish potatoes sell for only 7c. If the high cost of paper, in connection with the high cost of everything else continues, it will be no trouble to dig up enough rags at our house to pay for as many Murphys as we can consume this winter.

Louisville as the army camp site, she sent a delegation to Washington in an effort to get that department to change the location to the blue grass city, but concluded after reaching the capitol to only ask for a sub-cantonment.

An Evansville rural route carrier was found guilty of cursing the President and the Government, and fined \$250 and sentenced to serve three months in jail, says a news item. Yes, and "dollars to doughnuts"—he's out of a job, too.

We'd like to shake hands with that Indiana printer who invested his savings, \$10,000, in liberty loan bonds—not because of his patriotism, but we just want to see one printer who was the possessor of that much money.

The two millionaire Mexicans, who were robed of \$45,000 while taking a bath in Detroit, will probably put their hands on their pocketbooks every time they see an American bath tub hereafter.

A St. Louis aviator stuck his head out of a Sandusky, Ohio, street car window and it struck a telephone pole, killing him instantly. Hazardous business this—of riding street cars.

We thought last Friday that we would have to go into our garden and bring our corn, beans, tomatoes, etc., into the house by the fire to keep them from freezing.

Another slap at old J. B. Corn. New tax rate is \$60 on the 100 pounds instead of \$20 on the bushel of foodstuffs that go into the making of booze.

The ladies of Louisville sold nearly \$2,500 worth of flag tags Thursday. The money goes for the benefit of the first regiment boys.

How cheap the cost of living is getting! Flour is now below the \$12 per barrel mark.

What is more rare than a temperature of 47 degrees on the 15th day of June?

**KEEP AT IT.**

You can well afford a smile of satisfaction when you sit at your dinner table and enjoy the steaming vegetables that come from your own garden.

There is that confident feeling that your time during the weeks past has been well and usefully employed.

It has, and you are being amply rewarded for your efforts.

During the tempestuous season of rain and storm, when you looked at your wind-swept garden in the morning you had occasion to feel discouraged. Beaten to the ground and washed out of their bedding place, you instinctively felt that you had just thrown so many hours of hard work away. But when you returned that night you found that the sun had remedied the ravages of the night before, and the situation was so much improved that your confidence returned.

Now you see in a practical way that a reward you receive for such a little effort.

But do not quit. You can continue to plant and replant until December. Do not stop now. The good work has just begun. There is a schedule published in the Commercial Appeal each week showing you what to plant and how to plant it. Do not let a productive garden rest until the finger of winter is laid upon the earth.

There are abundant crops yet to be planted. The growing season has just begun.—[Commercial Appeal]

WANTED—Old iron at 60c 100-lbs. Rags at \$1.50 per 100-lbs. Beef, Horse and Mule Hides 15c lb. Ginseng, Yellow and Marapple Root at market prices.

D. L. D. SANDERFUR,

Beaver Dam, Ky.

CANDIDATES.—The Herald has the printed blanks that have to be filed with the County Clerk to insure your name appearing on the ballot, and also the blanks for filing your expense accounts. Come in and get yours.

Word has been received by his parents here, that Chester Keown, who has been residing in Oregon for some time, has joined the United States Engineering Corps and is expected to be at the front in France within thirty days. The duties of engineers consists of constructing pontoon bridges and the like, and the place is

much more hazardous than that of the private in the ranks.

Mr. Arthur Minton, of Indianapolis, Ind., is visiting his parents, Mr. and Mrs. Hardin Minton, on Route 2. Mr. Minton was at one time a teacher in the Ohio county schools, but is now connected with the street car company at Indianapolis.

Rev. Birch Shields was in town Monday. He had filled his regular appointment at Dundee and Narrows Sunday, and was on his way home at Beaver Dam. Bro. Shields reports crops in the section over which he traveled, as looking fine and farmers busy.

Mr. C. C. Herring, of White Plains, Hopkins county, has returned home after spending about fifteen days in Ohio county visiting friends and relatives. Mr. Herring is troubled with hay fever and expects to spend the winter in a climate more conducive to his health.

Nat Lindley, L. E. Everly, Worth Bell and Watt Taylor, of Centertown; Rowan Holbrook, S. O. Keown and W. W. Browder, of Hartford, and others from other sections of the county, attended the Pure-Bred Breeders Live Stock Association at Owensboro yesterday.

Saturday was an unusually quiet day in Hartford—hardly enough farmers in town to "wad" the proverbial "shot-gun." The weather was too pretty, and the ground in fine condition, and the tilling of the soil appealed to our farmer friends more than coming to town.

Write to Fordsville Planing Mill Company, Fordsville, Ky., for prices of Composition Rubber Roofing. They have a large and a very complete assortment of grades of good, reliable roofing. You can find a Roofing that will suit you. Samples furnished upon request.

Wheat in the county is beginning to ripen fast under the past few days of warm sunshine, and the cutting will begin now in a few days. Prospects are not so rosy for a very large crop, most of it having been frozen out last winter during the extreme cold weather, but what is left on the ground is reported as being first-class.

The second examination for teachers certificates was held at Fordsville last Friday and Saturday. Thirty-two started the examination, but three fell out before the papers were completed. The county board of examiners, Profs. Stanley Phillips and S. P. McKenney, and Supt. Shultz at press hour, were busily engaged in grading the papers.

We understand that most of those who were burned out in the recent fire at Fordsville are planning to rebuild as soon as possible, and put up more substantial houses in every way. Some of the enterprising merchants of that little city have set up in temporary quarters, are doing business as usual. Good for the pluck of these business men.

Quite a number of the relatives of Mr. W. T. Keown gathered at his home near Fordsville Sunday. Mr. Keown's only aunt, Mrs. Bell Rhoads, of Kansas City, Mo., and an only uncle, Mr. J. P. Gilmore, were there. Sheriff and Mrs. S. O. Keown, from Hartford, were present. Mrs. G. Roberts, sister, of Sheriff Keown, and Mrs. Bell Rhoads will be in Hartford Thursday to visit he and Mrs. Keown.

The Goshen Farmers' Community League has been organized. The object of this league is the upbuilding of the community, and it is one of the strongest farmers clubs in the country, and they have nearly one hundred members, all of whom are very enthusiastic over their work. They are now entering into a contest for which they will give cash prizes for the best yield of farm products, and individual farm animals. They are looking forward to a great upbuilding in this community along farm lines and we predict for them a great future. This is the spirit of progressiveness that we like to see among our farmer friends, and we hope other communities will take up similar work.

### NOTICE TO TEACHERS.

Please do not forget the Ohio County Teachers' Institute convenes in Hartford Monday, July 2d. Prof. W. C. Chalmers, of Bowling Green, will be the instructor.

Program will be out in a few days. Would have had them out, but have been waiting for the institute syllabus to be prepared.

Sincerely yours,  
OZNA SHULTS, S. S. O. C.

### ICE CREAM SUPPER.

On Saturday night, June 30, 1917, there will be an ice cream supper and free entertainment given at Geashen House by the Community Club. Everybody invited. A good time assured all who attend.

24-42

### MEASLES AND PNEUMONIA

Fatal to Mr. Porter Hunley—Buried Sunday At Hopewell.

Mr. Porter Hunley, of Echoles, one of the most highly respected and best known men of his section of the county, died Friday night, of measles and pneumonia, at the age of 57 years.

Mr. Hunley first contracted measles, pneumonia developing later, resulting in his death.

Mr. Hunley is survived by one son, Norden, and three daughters, Mrs. Ethel Taylor and Misses Olga and Evelyn Hunley.

Funeral services were conducted by Rev. R. D. Bennett, assisted by Rev. E. G. Boggess, at Hopewell Sunday, with interment in that burying ground.

One of the largest crowds that ever attended a funeral in this county, were at the services.

### MESDAMES GLENN AND BEAN ENTERTAIN WOMAN'S CLUB

The Woman's Club was entertained Saturday afternoon by Mrs. James S. Glenn and Mrs. Ira D. Bean at the home of Mrs. Glenn in honor of Mrs. H. E. Brown, who will leave this summer for Harrisburg, Ark., to make her future home.

It was the last meeting of the Club for the summer and the annual election of officers took place. The subject of the program for the afternoon was "American Artists."

After the program the members were invited in the diningroom and were seated at a long table which was decorated with sweet peas.

An elaborate two course lunch was served. The president of the club Mrs. J. R. Pirtle, presided and in a charming way called upon Mrs. Henry Carson, who responded with an original poem which was a fitting tribute to Mrs. Brown. Mrs. John B. Wilson next responded, "The

THEY BLAME ISSY FOR EVERYTHING.

## MEAT MARKETS IN SOUTH

## Ways by Which the Small Producer May Dispose of His Live Stock.

Agricultural efficiency, in this national emergency, is in considerable measure a matter of efficiency in the use of farm machinery. Man labor is scarce. The lack must be made up largely by better utilization of men, horses and tractors now on farms.

There are three important ways in which our more efficient farmers improve on traditional methods of using labor for field operations, namely:

(1) They increase the horse power per man by increasing the size of teams.

(2) They increase the area covered per man and per team by substituting large-sized implements for small ones.

(3) They increase the area covered in a given time by increasing the size of fields.

To increase horse power per man the farmer merely drives a three-horse team where before he drove but two horses, or a four-horse or five-horse team instead of a three-horse team. This is perhaps the simplest expedient for increasing labor efficiency on the farm, and one which is already very generally practiced by our farmers. Where horse labor is abundant and man labor scarce doubling up teams effects a material saving of labor, even without any increase in the size of implements used since naturally the large team works more easily and more rapidly than a smaller one.

When the doubling of teams is accompanied by the introduction of larger implements, a further saving of man labor and of time is effected. For example, one man with a two-row cultivator will cultivate twice the crop area per day covered by the man with a one-row cultivator. Thus, too, under favorable conditions an 8-foot mower or binder will cover much more ground in a day than will a 6-foot machine. Similar economies may be effected with other machines, such as harrows, sulky plows, harrakes, and the like, especially in the Eastern States, where small-sized implements are the rule. In general, the larger sized machines cost but little more than the smaller ones; indeed the difference is usually so small that one season's saving in man labor through the use of a big machine will often pay the excess in its cost over that of one of a smaller size. The farmer should always buy the largest implement that will be practical on his land. It is false economy to buy a smaller one.

Resort to the third expedient for increasing labor efficiency in field operations, namely, enlarging fields, depends in great measure on the lay of the land. Where the land is level or rolling and two adjoining fields to be plowed can be plowed as one if a fence between is removed, it is often worth while to tear away the fence and throw the two fields into one. Thus the straightaway reaches in plowing and other operations are lengthened and much of the time is saved that otherwise would be lost in turning. Incidentally, this procedure brings under cultivation the waste land in the fence row.

Farm-management studies have shown that the size of farm is a controlling factor as regards efficiency in the use of man labor, horse labor, and machinery on farms. That is to say, other things being equal, the larger the farm the more crop acres worked per man. It is not possible, of course, for the average farmer to increase the size of his farm at will to meet an emergency, but many will find it possible to gain at once a measure of the advantage of a large farm by making their fields as large and as few in number as is possible under the conditions of topography and rotation.

For the tractor owner there are certain special expedients that may be resorted to in this crisis. If work offers are proficient operators are available for two shifts, he should work his outfit 24 hours a day. The tractor that works all night as well as all day is the equivalent of two

such tractors working 12 hours. The average tractor owner is in position to render effective aid in the production campaign by helping those of his neighbors who may be behind-hand with their spring work, and in many instances, no doubt, a week of night work by a tractor will go far toward solving the immediate labor problem of a neighborhood. At any rate it is the obvious duty of the tractor owner to do all the custom work he can do this spring without neglecting his own work.

It should be borne in mind in this connection that experience has shown that in working exceptionally long hours with tractors it is generally the best practice to have one man in full charge of the outfit and responsible for all adjustments and repairs.

## SHOT BY EX-CONVICT

Boyd County Man Shot By Beneficiary of Gov. Stanley's Clemency.

Ashland, Ky.—John Graham, of Catlettsburg, who was pardoned by Governor Stanley shortly after he had been sent to the penitentiary on a charge of waylaying and shooting his father-in-law, was arrested, together with his brother, Frank Graham, on a charge of shooting Purl Howell, a neighbor. The men met on a road and engaged in a quarrel, during which the Grahams are said to have fired about a dozen shots, two of which struck Howell, who, it is said, was unarmed, in the body; one in the hip and one in the stomach. He may recover.

## PATRIOTIC? SURE!

## WILLIE'S A MARINE

William Sayre is a patriot. He did not register until Thursday when he was placed under arrest, but he now is a member of Uncle Sam's Marines.

Tuesday afternoon he walked into the Marine Corps Recruiting Station at Fourth and Jefferson streets and applied for enlistment. Capt. Lyons, head recruiting officer, was overjoyed at the physical proportions of the "prospect." William is slightly more than six feet tall and weighs about 165 pounds.

The examination went along smoothly, and Capt. Lyons was about to enroll the young man.

"Let me see your registration card," he asked William.

"Haven't got one," was the reply. "Didn't register."

Marshal Edgar H. James was called and William was placed under arrest. Then it was discovered that William might register before City Attorney Beckley. He did so.

William, still patriotic, returned to Capt. Lyons and was accepted for service with the Marines.—[Louisville Herald]

## LUKE McLUKE SAYS

"At the beginning of time, God created the universe and man. But when He came to create woman, He found that He had exhausted His materials, and that no solid elements remained. So God mused awhile and thought it over. Then He had an idea. He took some moonlight and the wisdom of a serpent, and the slenderness of reeds, and their soft movement in the wind, and the tears of a rain cloud, and the velvet of flower petals, and the grace of a roe, and the tremor of grasses, and the vanity of a peacock, and the softness of down on a bird's breast, and the hardness of diamonds, and the sweetness of honey, and the cruelty of a tiger, and the wrath of the fire and the coldness of snow, and the chatter of a jay, and the coo of a dove—and out of these God created woman."

Myrtle—"Why don't you paint the sky blue?"

Mary—"Cos I've only got Prussian blue, and I'm not going to use that till the war's over."—[London Opinion]

**The Evils of Constipation.**  
Constipation is one of the main reasons why the average human life is below 40 years. Leaving waste material in the body, poisons the system and blood and makes us liable to sick headaches, biliousness, nervousness and muddy skin. When you note these symptoms, try Dr. King's New Life Pills. They give prompt relief, are mild, non-griping in action, add tone to your system and clear the complexion. At your druggist, 25c.—Advertisement

## N. E. A. AT PORTLAND.

The following itinerary will be used in the Colorado, Yellowstone, Portland Tour. Using St. Louis as the Gateway, to which place the party will go direct, the ticket being made to cover all expenses from the starting point. Tickets and reservations will be furnished them so that we all leave St. Louis on the morning of June 25th, over the Missouri Pacific R. R., via Kansas City to Denver. One day in Denver, then side trip to Royal Gorge and Cripple Creek, stopping two days at Colorado Springs. We will then go to Yellowstone Park over the Burlington R. R., entering the Park at Cody, Wyoming; five days with guides and all the necessary accommodations for a full enjoyment of this great wonderland. The tour is made in automobiles and the stop will be made at the camps where every comfort is had. Persons who desire may stop at hotels by paying \$9.00 additional sum to prices quoted here. After the five days in Yellowstone, we leave the Park via Gardiner, July 6th, and make final stop at Spokane, reaching Portland July 7th, where the party will remain five days, taking in all meetings of the National Education Association. The party will leave Portland at eleven p. m. and have the next twenty-four hours in Seattle, leaving via Puget Sound to Victoria. The day is delightfully spent on the steamer to Vancouver. After a stop at Vancouver, B. C., the party will return through six hundred miles of the Canadian Rockies, stopping a half day at Glacier, and a day each at Banff and Lake Louise; then direct to Minneapolis and St. Paul for stops and sight seeing tour; to Chicago for a sight seeing tour and back home direct from Chicago.

Some parties may desire to stop and visit. This can be arranged and such persons may have ticket and remain as long as the limit of ticket will permit.

Now about expenses. The following is the All Expense Tour from cities named, and tickets and reservations will be made for your party from the starting points to St. Louis, at the rate quoted below:

Frankfort, Ky	.....	\$246.50
Louisville, Ky	.....	243.00
Cincinnati, O	.....	243.00
Owensboro, Ky	.....	240.75

Rates from other points will be given later.

The above rates are figured very close, everything being done to keep the total expense as low as possible. After reaching St. Louis the party will be taken in charge by experienced guides so that no one will have anything to do but see and have a good time.

What is included in price:

Round trip railroad fare.

Standard Pullman fare, round trip.

All meals and hotel bills round trip of twenty-four days.

Sight seeing tour in Denver.

Sight seeing tour in Cripple Creek.

Royal Gorge, side trip.

Sight seeing Colorado Springs.

All expenses five days through Yellowstone (camping way).

Sight seeing at Spokane.

Hotel and meal expenses five days at Portland.

Sight seeing Vancouver.

Sight seeing Victoria.

Stops in Canadian Rockies.

Sight seeing in Minneapolis and Chicago.

For further particulars write the Department of Education, State Superintendent Public Instruction, Frankfort, Ky.

## ONLY 11 ACRES OF LAND TO FEED EACH PERSON

The June Farm and Fireside says: "The earth has a trifle less than 197,000,000 square miles of total surface. A little over a fourth of this surface is land, 55,000,000 square miles of it. And of this 28,000,000 square miles, or a scant fraction over one half, is soil that can be used for food production. The rest is desert, mountain range, and polar regions. A little of this might possibly be reclaimed, but not very much."

"So here we have two vital facts in the practical geography of today; There are 1,600,000,000 people on the earth to feed, and 28,000,000 square miles of tillable land with which to

## By GOLDMAN

do it. Or, reduced to figures in which we are more accustomed to think, this means that one person must live on an average, the world over. Don't say, 'It can't be done,' for it must be done or somebody will starve. In Belgium today, as for the last two years, helpless mothers watch their babies slow: starve to death before their eyes. Poland is almost as pitiable a plight, judging from the fragmentary reports that have filtered through, and all Europe is suffering to some extent, the poor especially."

**Sloan's Liniment for Rheumatism.**  
The pain goes so quickly after you apply Sloan's Liniment for rheumatic pains, neuralgia, toothache, lumbago, sprains and its so easy to use. It quickly penetrates and soothes without rubbing and is far cleaner and more effective than messy plasters or ointments. Keep a bottle in the house and get prompt relief, not only from all nerve-pains but from bruises, strains, sprains, over-exercise and all external aches. At your druggist, 25c; 50c and \$1.00.

## IMAGINE AN INSURANCE AGENT WHO STUTTERS

Ability to present goods convincingly is the prime factor in salesmanship. Think then of the handicap of stuttering. Yet a writer in the July American Magazine says:

"Obstacles have no terrors to the man destined to 'get on.' I know of an extraordinarily successful life insurance man—the branch office of which he has charge does an annual business of \$7,000,000—who stutters. Yet in spite of this handicap he hits the line hard and breaks through for big gains. Why? Because he has determination, punch, and a few of these other qualities I have mentioned. He is not a 'genius' but he works intelligently and continually to the limit of his ability. And that is the thing that will land any man high up in the scale!"

**State of Ohio, City of Toledo.**  
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that can be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.  
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1916. A. W. GLEASON,  
(Signed) Notary Public.  
Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O.  
Sold by all druggists, 75c.  
Hall's Family Pills for constipation.

Jinks—"Billings surely likes to put on airs."

Binks—"What's he doing now?"

Jinks—"Oh, he fills a gasoline can with water and carries it home in full sight of the neighbors every night."—[Cornell Widow]

Willis—"Just think of it! Those miles on a galleon!"

Gillis—"Nonsense. You can't believe half you read about those foreign cars."—[Life.]

## Keeping Yourself Well

## DRIVING OUT CATARRH

If people knew how the presence of catarrh is in constant menace, they would have none of it. It infests some part of the delicately adjusted body and makes it useless, thus throwing on the other organs more than their share of work. It is hard to completely remove seedbed for the germs of colds, grippe, tuberculosis and pneumonia. It so disarranges Nature's delicate plane as to make impossible the carrying of the other aspirational disease orders. It spreads until it becomes systemic, thus involving many organs and debilitating the entire system with serious results.

It rarely gets well of itself, and it needs proper medicinal correction. For almost half a century many thousands have found help in a valuable medicine with medicinal efficacies in catarrhal conditions. The aim is to clean out waste matter, to dispel the catarrhal inflammation, and tone up the whole organism. It has done all this and even more for catarrhal sufferers. What it has done is the best proof of what it will do. You may rely on it.

In tablet form it is pleasant to take and easy to administer.

Tablets are a laxative and liver tonic. They have no unpleasant taste and do not form a habit. 10c, 50c, The Perfume Co. Columbus, O.

# HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

## LOANS BETTER THAN TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Disadvantageous—Great Britain Example Worthy of Emulation—How the Taxes Should Be Apportioned.

By EDWIN R. A. SELIGMAN,  
McVicker Professor of Political Economy, Columbia University.

On May 23, 1917, the House of Representatives passed an act "to provide revenue to defray war expenses and for other purposes." In the original bill as presented by the Committee of Ways and Means, the additional revenue to be derived was estimated at \$1,810,420,000. The amendment to the income tax, which was tacked on to the bill during the discussion in the House, was expected to yield another \$40,000,000 or \$50,000,000.

In discussing the House bill, two problems arise:

I. How much should be raised by taxation?

II. In what manner should this sum be raised?

I. How Much Should Be Raised by Taxation?

How was the figure of \$1,800,000,000 arrived at? The answer is simple. When the Secretary of the Treasury came to estimate the additional war expenses for the year 1917-18, he calculated that they would amount to some \$6,000,000,000, of which \$3,000,000,000 was to be allotted to the allies, and \$3,000,000,000 was to be utilized for the domestic purposes. Thinking that it would be a fair proposition to divide this latter sum between loans and taxes, he concluded that the amount to be raised by taxes was \$1,800,000,000.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent, that is, of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

**Disadvantages of Excessive Taxes.**

The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up entirely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

**Great Britain's Policy.**

Take Great Britain as an example. During the first year of the war she increased taxes only slightly, in order to keep industries going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expense.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment or the extraordinary burden of taxes in war times certain scientific principles are definitely established:

(1) **Taxes Should Be Apportioned.** The burden of taxes must be spread as far as possible over the whole community so as to cause each individual to share in the sacrifices according to his ability to pay and according to his share in the Government.

(2) **Taxes on Consumption.** Which are necessarily borne by the community at large, should be imposed as far as possible on articles of quasi-luxury rather than those of necessity.

(3) **Excises should be imposed as far as possible upon commodities in the hands of the final consumer rather than upon the articles which serve primarily as raw material for further production.**

(4) **Taxes upon business should be imposed as far as possible upon net earnings rather than upon gross receipts or capital invested.**

(5) **Taxes upon income which will necessarily be severe should be both differentiated and graduated.** That is, there should be a distinction between earned and unearned incomes and there should be a higher rate upon the larger incomes. It is essential, however, not to make the income rate so excessive as to lead to evasion, administrative difficulties, or to the more fundamental objections which have been urged above.

(6) **The excess profits which are due to the war constitute the most obvious and reasonable source of revenue during war times.** But the principle upon which these war-profit taxes are laid must be equitable in theory and easily calculable in practice.

**The Proposed Income Tax.**

The additional income tax as passed by the House runs up to a rate of 60 per cent. This is a sum unheard of in the history of civilized society. It must be remembered that it was only after the first year of the war that Great Britain increased her income tax to the maximum of 34 per cent., and that even now in the fourth year of the war the income tax does not exceed 42½ per cent.

It could easily be shown that a tax with rates on moderate incomes substantially less than in Great Britain, and on the larger incomes about as high, would yield only slightly less than the \$322,000,000 originally estimated in the House bill.

It is to be hoped that the Senate will reduce the total rate on the highest incomes to 34 per cent, or at most to 40 per cent, and that at the same time it will reduce the rate on the smaller incomes derived from personal or professional earnings.

If the war continues we shall have to depend more and more upon the income tax. By imposing excessive rates now we are not only endangering the future, but are inviting all manner of difficulties which even Great Britain has been able to escape.

**Conclusion.**

The House bill contains other fundamental defects which may be summed up as follows:

(1) It pursues an erroneous principle in imposing retroactive taxes.

(2) It selects an unjust and unworkable criterion for the excess-profits tax.

(3) It proceeds to an unheard-of height in the income tax.

(4) It imposes unwarranted burdens upon the consumption of the community.

(5) It is calculated to throw business into confusion by levying taxes on gross receipts instead of upon commodities.

(6) It fails to make a proper use of stamp taxes.

(7) It follows an unscientific system in its flat rate on imports.

(8) It includes a multiplicity of petty and cumbersome taxes, the vexatiousness of which is out of all proportion to the revenue they produce.

The fundamental lines on which the House bill should be modified are summed up herewith:

(1) The amount of new taxation should be limited to \$1,250,000,000—or at the outset to \$1,500,000,000. To do more than this would be as unwise as it is unnecessary. To do even this would be to do more than has ever been done by any civilized Government in time of stress.

(2) The excess-profits tax based upon a sound system ought to yield about \$500,000,000.

(3) The income-tax schedule ought to be revised with a lowering of the rates on earned incomes below \$10,000, and with an analogous lowering of the rates on the higher incomes, so as not to exceed 34 per cent. A careful calculation shows that an income tax of this kind would yield some \$450,000,000 additional.

(4) The tax on whisky and tobacco ought to remain approximately as it is, with a yield of about \$200,000,000.

These three taxes, together with the stamp tax at even the low rate of the House bill, and with an improved automobile tax, will yield over \$1,250,000,000, which is the amount of money thought desirable.

The above program would be in harmony with an approved scientific system. It will do away with almost all of the complaints that are being urged against the present. It will refrain from taxing the consumption of the poor.

It will throw a far heavier burden upon the rich, but will not go to the extremes of confiscation. It will obviate interference with business and will keep unimpaired the social productivity of the community.

It will establish a just balance between loans and taxes and will not succumb to the danger of approaching either the tax-only policy or the loan-only policy. Above all, it will keep an undisturbed elastic margin, which must be more and more heavily drawn upon as the war proceeds.

## JUMPS THROUGH WINDOW; RESULT OF BAD DREAM

Guy Henning, who lives on East Powell street, a shot firer at the People's mine, had a hard fall as the result of a vivid dream he had about midnight. Mr. Henning dreamed that he had lit a fuse, but was unable to make his escape because his light went out.

As a result of the imaginary explosion, Henning jumped from bed, sprang through the glass of a nearby window and fell to the porch below. He sustained no injury from his fall. —[Henderson Gleaner.]

## DON'T Have Catarrah

One efficient way to remove nasal catarrah is to treat its cause which in most cases is physical weakness. The system needs more oil and easily digested liquid-food, and you should take a spoonful of

### All About You and Your Neighbors

## CERALVO.

June 18.—Mrs. Blanche Jones has returned home after spending several days at Evansville, and with her sister, Mrs. Nola Mullen, of Princeton, Ind.

Mrs. W. D. Barnard spent Sunday with her brother, Mr. Perry Brown, and family, near Centertown.

Mrs. P. L. Wool and Miss Maggie Hunter visited their brother, Mr. J. R. Hunter, and attended the burying of Mr. Joe Bullock Sunday at Equality.

Miss Eddie Elliott is visiting her uncle and aunt, Mr. and Mrs. Jones.

Mr. and Mrs. J. W. Barnard and little son, Paul, visited their uncle, Mr. Perry Brown, and family, of Centertown, Sunday.

Mr. and Mrs. J. H. Wood spent Sunday with her father, Mr. P. R. Robertson, of Echols, and attended the burying of Mr. Porter Hunley at Hopewell.

Miss Margaret Barnard was in Central City last Thursday and Friday having some dental work done.

Mrs. L. P. Fulkerston, who has been quite sick, is thought to be some better at this writing.

Little Miss Mattie E. Robertson is visiting her aunt, Mrs. J. H. Wood.

Mary Catherine, the little daughter of Mr. Walter Hill, is quite sick at this writing.

## SIMMONS.

June 18.—Several from here attended the funeral of Mr. Porter Hunley at Hopewell, Sunday.

Messrs. B. C. Vance, A. T. Davis, James Moore, Robt. Trail and Alva Southard attended the flag raising and speaking at Madisonville, Saturday.

Mr. Fred Tatum and family visited relatives near Bennett's, Sunday.

Mrs. J. H. Tucker returned home after a visit to relatives at Mt. Pleasant for several days.

Mrs. —— Baldwin, of Owensboro, is visiting her sister, Mrs. J. H. Tucker, this week.

Mr. Chas. Sebastian was bitten by a dog last week, the dog afterwards was killed, supposed to have gone mad. Mr. Sebastian did not want to take any chances so he has gone to Swole Green to take the pasture treatment.

Mr. Percil Brown, who has been in Detroit for the past year, is at home on a visit now.

Mr. Winston Smith, candidate for Judge, was in town Thursday.

## BEAVER DAM.

June 18.—Mr. Nicholas Barrass, of Taylor Mines, and Miss Bessie Williams, city, left last Friday for Louisville where they were united in matrimony. They were accompanied by the groom's brother, Mr. E. G. Barrass, and Misses Alpha and Edna Williams, sisters of the bride. Mr. Barrass and his bride left for a brief trip to the Niagara Falls. Miss Bessie was an employee of the Beaver Dam Deposit Bank and a noble Christian girl—a member of the Beaver Dam Baptist church. Mr. Barrass is in the mining business and his home is at Taylor Mines.

The stork visited the home of Mr. Otto Dexter last Monday evening and brought into their home a young man that is soon to succeed Mr. Dexter in the post-office. He is doing fine and weighs 10-lbs.

Miss Martine Taylor, who graduated in bookkeeping in Bowling Green this spring, has the position of clerk in the Beaver Dam Deposit Bank.

Mr. Bert Angle, of Nashville, is visiting the family of Dick Taylor and other friends in town.

Mrs. Manerva Taylor, who has been sojourning in Bowling Green for a year has returned to her home in Beaver Dam.

Mrs. Ike Sanderfur, little daughter and Mrs. Everette McKinney and little son left Saturday to join their husbands in Detroit, Mich., where they are in business.

Mrs. Mata Hunley left Saturday evening to visit her two brothers, Messrs. Everette and Billie Chapman, at Herrin, Ill.

Uncle Dan Rhoads and wife moved to Beaver Dam last week from Central City.

Sunday was the regular meeting at the Baptist church. There were 151 present in Sunday School. Rev. Edgar Allen delivered an interesting sermon to the church on the "Bible Being God's Word to Man."

All the Sunday Schools of town have joined in to have a Sunday School picnic in the Baptist Grove the 4th of July.

## RALPH.

June 16.—Mr. Otway Taylor, who belongs to the U. S. army, and who has been stationed in Arizona for some time, has been visiting his parents, Mr. and Mrs. Frank Taylor, of Adaburg.

Mr. and Mrs. C. M. Patton, of Ada-

burg, visited Mr. and Mrs. Buell Midkiff Saturday night and Mr. and Mrs. J. L. Patton Sunday.

Rev. T. Byron Bandy, wife and daughter, Annie Lee, Mr. and Mrs. C. E. Miller and children Kathryn and Lillian, of Fordsville, Ky., spent Thursday with Mr. and Mrs. J. H. Miller, of near Magan.

We have had plenty of rain in this community.

Mr. and Mrs. T. S. Miller, of near Dundee, spent Saturday night and Sunday with Mrs. Miller's parents, Mr. and Mrs. J. L. Patton.

Mr. Thurman Ralph, wife and daughter Aubra, went to Owensboro Tuesday, returning Wednesday.

Mr. Willie Patton visited his sister, Mrs. T. S. Miller, Saturday night and Sunday.

## CLEAR RUN.

June 18.—Crops are looking reasonably well here owing to so much rain.

Mr. F. Taylor is closing out his store at Taffy to quit business. This will be a good place for some one who likes to deal in merchandise, as there will be no one left in the business at that place.

Mr. C. E. Hoover, of Beaver Dam, visited here last week and was also advertising the portrait work.

Mr. Ernest Stewart and family, of Beda, were the guest of Mrs. Stewart's brother, Mr. Roscoe Baird, and wife, Sunday.

Mr. Connor Ford, of Madison, Wis., is visiting his mother and friends at this place.

Mr. W. P. Hoagland and family were the guests of their mother, Mrs. J. T. Funk, Sunday.

Several from here attended the unveiling at Mt. Carmel Sunday.

We had a light frost last week that did some damage to crops.

## EQUALITY.

June 18.—Mr. J. R. Hunter is quite ill at this writing.

Mr. H. B. Bennett has been quite sick past few days, but is better.

Mr. Seymour Bennett and family, Hartford; Dr. Ford and wife, of Livermore, and Mrs. Ira Leach, Central City, were guests of Mr. and Mrs. Henry Bennett, Saturday night.

Mrs. P. L. Wood and Miss Maggie Hunter, Ceralvo, spent Sunday with Mr. J. R. Hunter.

Mrs. Annie Lashbrook, Utica, and Mrs. J. C. Drake spent Saturday night with Mr. J. R. Hunter.

Mr. James Drake is at Mudavia Springs in Indiana, where he went for rheumatism. He was accompanied by Dr. J. D. Smith, of Center-town.

Miss Goebel Everly, Ceralvo, is the guest of Mrs. Wilbur Faught.

## OAK GROVE.

June 18.—Several from here went to church at Narrows Saturday and Sunday.

Mr. and Mrs. T. B. Mitchell and Mr. and Mrs. Alex Boswell stayed all day Sunday at Mr. Wayne Boswell's.

Mr. and Mrs. C. F. Boswell returned from Owensboro Monday.

Mr. and Mrs. Arvis Wedding spent Sunday with Mr. and Mrs. Charlie Condor, of Narrows.

Miss Ethel Muffett spent Saturday night and Sunday with Miss Erna Boswell. Miss Mary Boswell was also there Sunday.

Mr. and Mrs. Thurman Woosley were at Mr. R. D. Forman's Sunday.

Miss Mary Foreman visited Miss Mary Harrison, of Narrows, from Saturday until Sunday.

Mr. Lawrence Daniel and children were at Mrs. Mary Shultz's Sunday.

Sunday School and singing is progressing very nicely at this place.

Miss Hester Lynch, of Olaton, is visiting Miss Agnes Wilson.

Mr. Otis Cooke visited his parents Saturday night accompanied by Mr. Harry Wedding.

## HOPEWELL.

June 18.—Mr. Porter Hunley died last Friday night after two weeks illness of measles settling on his brain and bronchial pneumonia. Funeral services conducted by Revs. R. D. Bennett and E. D. Boggs to a sad sorrowing congregation of between three or four hundred people Sunday. He was born January the 31st, 1860; was married to Miss Nevada Brown April 28, 1887. To this union three children were born, two daughters and one son, his first wife dying October 28, 1900. He was married the second time to Miss Bessie Rowe January 11, 1903. One daughter by this marriage. His last wife died September 28, 1909. He joined the church at Hopewell about the year 1886. He leaves four children, two brothers and four sisters and a host of friends to mourn their loss.

He lived a consistent Christian until death and always did his part in the church. His daughter, Miss Olga, who has a position in West Virginia, also his brother, Henry, of White county, Ill.; Mrs. Jim Muir, of Rialto, Tenn.; Mrs. John Muir, Central City, all reached his bedside before death came.

Mr. and Mrs. Will Trulove, of Rochester, spent last Saturday night with Mr. and Mrs. C. G. Taylor.

We had a few real cold days last week, but corn is looking very well, but the people are badly behind with their plowing.

## HORSE BRANCH.

June 18.—Rev. Franks, pastor of the Methodist church at Beaver Dam, preached here in the new church Sunday to a large congregation.

Miss Bettie Bean, of Livermore, is visiting Mr. Cicero Rice.

Mrs. Tom Cox and children, of Rose, visited her daughter, Mrs. Claude Leach, a few days last week.

Mr. Carson Gary spent Friday and Saturday in Fordsville.

Mrs. J. T. Lashbrook left Monday to visit relatives in Bowling Green. Dr. J. S. Bean made a business trip to Louisville, Friday.

Mrs. H. V. Morrison and son Arthur spent Saturday in Fordsville.

Mr. Jack Watson, of Central City, visited Mr. C. W. Taylor, Wednesday.

Mrs. Joe Stewart and Lillian visited relatives in Owensboro Saturday and Sunday.

Mr. John Pierce is convalescent.

Mr. Lon White was in Owensboro Friday on business.

Mrs. W. O. Reed shopped in Owensboro Tuesday.

Rev. J. W. Green and son Walter are out of town filling appointments.

The following people have the measles: Mr. Herschel Sanderfur's family, Mrs. Marvin Phelps, Miss Nellie Arnold, Mamie Wilson, Allie Irene and Randolph Frymire, Elmore and Ira Baily.

## AT HARTFORD

American Co-Operative Association To Establish a Branch House Here.

Just as soon as sufficient amount of stock is subscribed by the farmers of Ohio county, the American Co-operative Association, which is the business end of the American Society of Equity, will establish a branch house here in Hartford with Mr. S. L. King as manager.

Only farmers will be solicited for members, as the object of the Association is to save its members the middleman's profit on everything they buy and sell, including machinery, food supplies and in fact everything bought or sold on the farm.

The American Co-operative Association headquarters are in Wausau, Wis., and it has branches in Chicago, Ill., St. Paul, Minn., Crawford, Neb., Booneville, Ind., Everett, Wash., Owensboro, Ky., and the one proposed here for Hartford, and owing to the enormous buying and selling power of all the members in all these branches together, the Association is enabled to take the entire output of various factories, mines, etc.

Every member has one vote, as men vote in this Association and not money. The stock is fully paid up and non-assessable, and nobody can buy over \$1,000 worth. Since organization the A. C. A. has paid 8 percent interest on the capital invested.

Mr. Seymour Cohn, who was at the head of the crew of salesmen in Daviess county, where he raised nearly \$30,000 for the Owensboro Branch in the last few weeks, is here in Hartford in charge of the work of raising sufficient funds among the farmers of Ohio county to start the Hartford Branch.

Miss Ethel Muffett spent Saturday night and Sunday with Miss Erna Boswell. Miss Mary Boswell was also there Sunday.

Mr. and Mrs. Thurman Woosley were at Mr. R. D. Forman's Sunday.

Miss Mary Foreman visited Miss Mary Harrison, of Narrows, from Saturday until Sunday.

Mr. Lawrence Daniel and children were at Mrs. Mary Shultz's Sunday.

Sunday School and singing is progressing very nicely at this place.

Miss Hester Lynch, of Olaton, is visiting Miss Agnes Wilson.

Mr. Otis Cooke visited his parents Saturday night accompanied by Mr. Harry Wedding.

## PARDON RECORD

We take the following from the news columns of our neighbor, the Louisville Times, in the form of a special dispatch from Ashland, Ky.:

John and Frank Branham, brothers, are in jail at Catlettsburg charged with shooting Purl Howell with intent to kill. They met Howell on the public road last night. Howell was unarmed, and it is alleged the Branham brothers fired twelve shots two taking effect. An old grudge was given as the cause. Howell has a chance to recover.

John Branham was sentenced six months ago for shooting his wife and father-in-law with intent to kill and was sent to the penitentiary, but was pardoned by Gov. Stanley after he had been there only sixty days.

The case is typical of Governor Stanley's pardon record. We submit it without comment, for no comment could make the fact blacker. The Stanley pardon record lengthens every day, and the number of crimes daily committed by men freed from prison.

The case is typical of Governor Stanley's pardon record. We submit it without comment, for no comment could make the fact blacker. The Stanley pardon record lengthens every day, and the number of crimes daily committed by men freed from prison.

Newton D. Baker, Secretary of War.

## Commonwealth Docket

July Term 1917.

First Day, July 2.  
(for orders)

- 5156 Com'th. vs. Otto Ament
